Revengeis "All Love is Equal " and "Peace" T-Shirts for men : Man Up, and Spread the Word

Real men like extra soft t-shirts as much as anyone else. They just don't talk about it. Real men also like promoting peace, love, and understanding.

Revengeis gives men the chance to shout it out in style. Their social message-emblazoned men's crew-neck and v-neck tees are made out of a blend of organic cotton (50%) and a fabric made out of recycled plastic bottles (50%). Yes, plastic bottles. The result is incredible--an ultra soft, quick-drying fabric that's both luxurious to wear and easy on the planet.

I gave two to my boyfriend to test, and he loves them. They looks great on him because the material is so soft and silky that it's both body conscious and loose-fitting. He likes the soft fabric so much that he's happily wearing the v-neck "Earth Day" tee after years of crew-neck preference.

Of course, I'm always trying to get him to leave his tees at my house so I can wear them as lounge shirts. (I've been wearing the women's style shirts myself, and loving them.) The materials is so unbelievably soft. It feels wonderful against the skin and it dries quickly. I toss them in the wash at night, hang to dry, and it's ready to wear the next morning.

Eco Creds: Contains organic cotton and fiber made out of recycled plastic bottles.

Bottom Line: I'm always happy to find apparel that has a conscious. If my boyfriend likes wearing it, even better.--E.D. (May '10)
